Object: CSIO Ch,J,Y,P, CSI Under 25 18/21 may Lamprechtshausen.

Dear Mr Thomas, we invite you to take the due and strict measures so that on the occasion of the forthcoming Youth Csio Lamprechtshausen do not continue to repeat the plague we are forced to attend every weekend on the race fields in Italy.

He will surely be aware of the treatment that is usually reserved for horses in Italy and the state in which the arts of these wonderful athletes are reduced for the use of ulcerative and vesicular substances. This unhappy and violent practice is unfortunately usually practiced as a jumping competitions for senior and young people and in particular by instructors/parents of leading Italian young riders. We refer to the names of renowned instructors in Italy for these systems with riders competing at a high youth level: , whose results are altered by these incorrect practices.

We ask you to immediately take the necessary steps against these practices by applying a rigorous preventive check in the day and night stables and checking the horses' arts before and after each competitions.

We need to practice clean sports, teach young people a correct sport and expel from the circuit anyone who spots **this horrible crime** on the skin of poor horses, fantastic and generous racing companions.

We would like his most important World Youth contest as an example for a clean sport.

If you take action by posting it on the contest program or on its site, we are ready to send you movies and photographs that clearly demonstrate the state of the horse's arts and their behavior in the field of testing, competition and prizes.

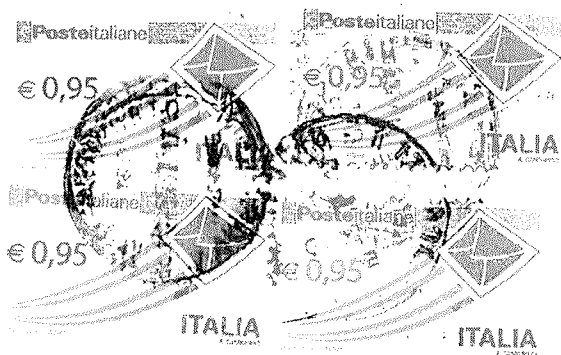

We ask you to strengthen the presence of judges and stewards at this event to give a clear signal to everyone, and to give these gentlemen control and follow the horses not only in the field of trial but also in the stables. **This mechanical and external doping must end forever.**

So for the sake of our sport, we urge you to intervene to make it clean. Please help us, do not force us to publish this letter, avoid writing to the CIO (International Olympic Committee) and make a scandal that would overwhelm our whole world.

We know that you are a great organizer, we do not disappoint, we are sure of your prompt and noble intervention, for the welfare of horses, youth education and a clean sport.

Yours faithfully.

Clean Sport & Horse Welfare.
